Time of Inspection: 1:30 – 3:30 p.m.  
Conditions: Cool – snow on ground  
Participants: Tom Munson, DOGM

**Purpose of Inspection:** To inspect the site per the operator request for file closure.

**Observations:**

I arrived at the Dunce Mine at 1:30 p.m. and had to hike about a mile into the mine site after going through the Forest Service gates. It was determined that nothing remains at the site. The cabins, etc. that were there were either burnt down or fell down. No new disturbance. There was still snow at the site.
